JIG SPINNERS

TRIBE Jig Spinners offer excellent value for money, with 5 per pack (Size 1&2) and 4 per pack (Size 3) and they feature sturdy stainless steel wires and gold coloured brass blades. The Olympic blade offers plenty of flash and vibration to draw fish to your lure and trigger aggressive strikes. Not just for use with soft plastics, Jig Spinners can be used to put a spin on many other lure profiles, including blades, vibes and hard bodies. Olympic Blades are a combination of a Willow and Colorado blade, offering the benefits of both and creating an all-round blade with a fast, hard and tight beat.

TWIN JIG SPINNERS

Twice the vibration, twice the flash, twice the fun! TRIBE Twin Jig Spinners feature a folding stainless steel wire frame for easy storage, simply sliding open ready to be attached to your jighead, blade, vibe or other lure. Twin Olympic gold coloured brass blades send out plenty of vibration, noise and flash, designed to draw fish to the lure and trigger aggressive strikes, while the wire frame increases the snag resistance of your soft plastic presentation. Double up!
