

ZMAN HAVE REVOLUTIONISED SOFT PLASTICS FISHING WITH THEIR UNIQUE ELAZTECH CONSTRUCTION, MAKING THEM AUSTRALIA'S #1 SOFT PLASTIC LURE.

Benefits of ElaZtech include its 10X Tough construction – allowing anglers to catch fish after fish on a single lure, super-soft and flexible realistic feel – which sees fish continuing to strike the lure until they find the hook, and a built-in buoyancy that brings ZMan plastics to life in the water, standing up off the bottom, tail up or claws up in a feeding/defensive pose that fish can't resist. Get one rigged and get into them. Fish on!

## STINGERZ 2"

A plump little pin-tail jerkbait with a unique kicker tail. These are a great representation for guppies, tadpoles and many other aquatic bait species.

# CURL TAILZ

For decades anglers have recognised the effectiveness of curl tail plastics for targeting a wide range of species and that's why ZMan offers a range of curl tails from 2" through to 9". Curl tails have plenty of built in action, making them ideal for anglers just starting out fishing soft plastics and deadly in the hands of experienced anglers.

## GRUBZ 2" & 2.5"

2" – A finesse grub that is ideal for bream, along with trout, redfin, etc. 2.5" – A fat body and long curl tail sees this 'jellybean' punching above its weight on bream, flathead, bass, trevally and other larger predatory species.

## ST GRUBZ 2.5"

The ZMan 2.5" ST GrubZ takes the popular GrubZ profile to the next level, with enhanced features for the ultimate curly tail presentation. A short, stocky, ribbed body is ideal for smaller hooks and is perfect for holding and retaining scent. The ribs also provide micro-vibrations and a softer more natural touch, so the fish find the lure and hang on longer. The long, curly, split tail design creates an irresistible soft fluttering action that works effectively on the drop, at very slow speeds and on light jigheads.

## GRUBZ 3.5"

Take the profile and enticing action of the popular 2.5" GrubZ and up-size it a little and you have a deadly mid-sized grub that is ideal for flathead, bass, snapper and a stack of other species. Not just another curl tail – 10X Tough, super-soft and flexible and buoyant for maximum action with minimal movement and a life-like tail-up action when at rest on the bottom.

# STREAKZ CURLY TAILZ 4" & 5"

This fat body minnow, with lively curl tail, has become a go-to plastic for flathead, mulloway, snapper, bass and big breem. The belly slot is ideal for adding Pro-Cure scent and also makes it easy for weedless rigging when fishing snags.

# PADDLE TAILZ

As their name suggests, paddle tails have a tail that is designed to 'paddle' from side to side when retrieved, realistically imitating the action of a swimming baitfish. Paddle tails are a popular option when your target species is feeding on baitfish, such as mullet, hardy heads, pilchards, herring and the like. ZMan have taken paddle tails to the next level, offering the benefits of their 10X Tough ElaZtech material.

## SLIM SWIMZ 2.5" & 3"

The Slim SwimZ is a finesse paddle tail that features a thin compact profile and lively paddle tail. The under hooked tail design creates maximum action with minimal movement. As well as being perfectly suited to bream, bass, trout, redfin, etc., it also punches above its weight landing a wide range of other species when the bait is small or the bite is tough.

## TRICK SWIMZ 3.5"

The big brother of the popular Slim SwimZ, Trick SwimZ feature a ribbed body for additional water movement along with an under hooked tail for maximum tail action and roll. This paddle tail has a pretty 'trick' action that needs to be seen to be believed, especially at dead slow speeds, making it a dynamite presentation for everything from flathead and mulloway to bass, barra and jacks.

# DIEZEL MINNOWZ 4", 5" & 7"

Angler requests have seen the popular and proven ZMan 4" DieZel MinnowZ grow into two larger models, 5" and 7". All models feature the slim body design and large paddle tail, that creates loads of action and body roll, along with a belly slot and split top fin for easy rigging and effective weedless rigging. These swimbaits have quickly found their place in angler kits as big fish favourites for barramundi, mulloway, snapper, kingfish, Murray cod, big flathead, reef and pelagic species.

## SCENTED PADDLERZ 5"

Scented PaddlerZ are a realistic baitfish profile that feature a thin paddle tail, combined with a segmented body, making them an extremely versatile presentation that can be slow rolled as a swim bait, twitched, hopped and high speed retrieved like a jerk bait or fished light on the surface as a wake bait. Maximum action for minimal movement and scented to attract fish and trigger strikes. The PaddlerZ have proven themselves on flathead, snapper, mulloway, barra and more.

# JERK BAITZ

These slender baitfish imitations are dynamite on a wide range of species from the estuaries to deep offshore. They have little built-in action, with the angler bringing them to life via twitches and lifts of the rod tip. This lack of built-in action makes them especially effective in deep water and fast currents, where they sink much quicker than plastics with built-in action, while their slender design also makes them ideal for distance casting.

Smoky Shad	2992
Watermelon Red	2993

This compact jerkbait has a long thin split-tail design that responds well to twitches and flicks of the rod tip, along with a realistic baitfish profile that is deadly on bream, flathead, bass, trevally, snapper and more. They also are an ideal option on larger species when they are focused on small baitfish, and a downsize is required to attract the bite.

## SCENTED JERK SHADZ 4", 5" & 7"

The Scented Jerk ShadZ is a classic profile for targeting snapper and other offshore species, as well as an effective baitfish profile for flathead, trevally, tailor, salmon and more. As well as all the benefits of ElaZtech the Jerk ShadZ are infused with 100% natural scents, derived from real baitfish and designed to attract fish, trigger strikes and make fish hold on longer!

Trick ShotZ feature a realistic baitfish profile, with a heavily ribbed underside for creating water movement and holding scent, plus a unique, heavily textured spade-shaped tail that creates glide, flick and a seductive action, even with minimal movement.

Combine this with the buoyancy of ZMan's 10X Tough ElaZtech material and this bulkier tail stands up in the face of the fish, creating a strike attractant that is close to the hook point.

## FINESSE SHADZ 4"

The worm-tail jerk bait with an irresistible action. A ribbed body leads into the thin whip-like tail, that dances and snakes about at the slightest rod twitch... in fact it's just about impossible to keep this lure still in the water. At 4" long it's a versatile size that will suit a wide variety of fresh and saltwater species.

These monster jerkbaits are ideal for targeting a range of large predatory species ranging from snapper, kingfish and cobia, to razor gang members like Spanish mackerel and wahoo. Their 10X Tough ElaZtech construction means they'll resist ripping and tearing, yet they're super-soft and flexible for maximum tail action.

## HEROZ 10"

Ten inches of 10X Tough! HeroZ are a super-sized jerk bait, ideal for a wide range of big fish applications. Perfect for everything from walking across the surface, through to weighting it to fish the depths, where its buoyancy and super-soft construction brings it to life. When retrieved at speed, HeroZ have a life-like, snaking swimming action that has proven effective on tuna, cobia, trevally, mackerel and more.

## TOPWATERZ

Topwater fishing can be heart-stopping and ZMan's buoyant ElaZtech plastics give you the advantage of rigging weedless to fish over and through virtually any structure, while using a TT ChinlockZ jighead.

## FINESSE FROGZ 2.75" & HARD LEG FROGZ 4"

**2.75" Finesse FrogZ** - The smaller 2.75" version is a bite size snack that is ideal for predators such as bass, saratoga, mangrove jack and more.

**4" Hard Leg FrogZ** - The original 4" version has proven dynamite on barra, Murray cod, mangrove jack and a wide variety of other larger predators. The Hard Leg FrogZ also makes a great out of the box sub-surface presentation, with its aggressive paddle foot action attracting fish and triggering strikes.

Mud Minnow	3156
Redbone	3154

These hybrid soft poppers rigged on a TT ChinlockZ jighead are awesome for fishing over heavy surface structure, where it would not be possible to fish traditional poppers. The cupped face delivers plenty of pop and splash, while the body has enough weight for long casts.

## GOAT TOADZ 4"

Goat ToadZ have been designed with input from ZMan customers and fans. 10X Tough ElaZtech construction provides extreme durability and buoyancy, while a bulky, yet streamlined body allows for long casts. Once it's on the water the cupped kicker feet create that fish attracting bubbling and gurgling that drives fish crazy on a slow, medium or fast retrieve.

## CRUSTACEANZ & CREATUREZ

Crustaceans and aquatic creatures are a popular food source for many species, in fact everything eats a prawn. ZMan has you covered for shrimp/prawn imitations and wild looking creature baits.

## PRAWNZ 2.5"

The ZMan 2.5" PrawnZ has a lifelike, bite-size prawn profile designed to fire up the fish's natural feeding response... everything eats a prawn! The body design allows the angler to create a natural prawn flick and glide, while thin legs and antennae quiver with the slightest movement for added realism. This realistic prawn pairs perfectly with a TT HeadlockZ, NedlockZ or Tournament Series HWS (Hidden Weight System) jighead. Available in 15 colours to cover a wide array of species and conditions.

BLOODWORM

CANADA CRAW

DREW'S CRAW

Combine the biological realism of the TRD CrawZ with the buoyant ElaZtech material and you create a dynamite, 10X Tough 'claws up' presentation that imitates a crayfish, crab and other crustaceans with deadly effect. Realistic features include the look of a tucked under tail and a flat belly for a natural, gliding descent, along with 3D eyes, segmented thorax and lifelike legs and antennae.

# BABY GOAT 3" / GOAT 3.75" / BILLY GOAT 4.25"

Go the GOAT! These wild creaturebaits are one of the most versatile lures in the ZMan range. Splash them across the surface for epic topwater action, bounce them through structure, slow roll over weedbeds and flats, or add them to a spinnerbait or finesse jig as a trailer for extra thump, presence and vibration.

Watermelon Red	GT425-18PK3

Designed with versatility in mind the 3" Baby GOAT has the power to thump and vibrate at all retrieve speeds, thanks to the twin action tails that feature the same unique curved paddle tail design found on other proven ZMan plastics. A segmented, slightly flattened torso transitions to dual thin-skinned kicking legs, each finished with a pulsating, deeply cupped paddle.

A step up from the Baby GOAT, the 3.75" GOAT adds size, bulk and casting weight to create a deadly surface presentation for barramundi, mangrove jack, Murray cod and other surface feeders, while also attracting the bites from river to reef fished subsurface.

The 4.25" Billy GOAT is the big boss of the GOAT tribe and the added size, bulk and weight makes it an awesome topwater presentation for barramundi, Murray cod and other larger surface feeders. Send it subsurface and it will get the bite from mulloway, flathead, snapper and more.

# PRO CRAWZ 3.5"

Our favourite CrawZ just got bigger, equipping anglers with an upsized version of the popular TRD CrawZ. Bulked up ElaZtech claws are super-buoyant to float up at rest, displaying a crayfish's natural defensive posture. Anatomical realism with tucked under tail, bulbous crayfish eyes and natural swimmerets for secondary elements of underwater animation.

# EZ SHRIMPZ 3.5" - RIGGED (2 PACK)

The ultimate 10X Tough ElaZtech, realistic prawn/shrimp imitation, ready to fish straight out of the packet! Designed with a segmented body and thin legs and antennae for added realism and lifelike movement, the Rigged EZ ShrimpZ features a heavy-duty, weighted Mustad UltraPoint hook that fits snugly into the moulded body cavity, ensuring it stays secure on aggressive retrieves and strike after strike.

# TURBO CRAWZ 4"

The Turbo CrawZ is a deadly jig, ChatterBait or spinnerbait trailer, as well as versatile soft plastic presentation in its own right. Specially designed Turbo ClawZ thump at even the slightest rod movement or reel crank, and the super buoyant ElaZtech material allows the ClawZ to rise up off the bottom in a natural defensive posture that will attract predators and trigger strikes.

# SOFT SWIMBAITS, HOLLOW FROGS, JIGS & ACCESSORIES

The mighty HerculeZ has expanded to include a versatile 3" model, that comes in an economical 2 pack. This smaller model will be a hit for anglers chasing everything from flathead in the estuaries to bass in the impoundments.

# HERCULEZ 3" 4" 5" 6"

ZMan's HerculeZ is the first pre-rigged soft swimbait to benefit from the advantages of ZMan's proprietary ElaZtech® material in its construction, and expertise in creating irresistible swimming actions.

The well-proportioned baitfish profile features lifelike fins for a more realistic visual impact, and the enlarged paddle tail delivers tonnes of action and vibration from its under-hooked design. Large 3D eyes are placed close together with an upward gaze, just like many bait species that are on the menu for larger predators. An additional attachment point under the chin allows the fitment of a stinger hook, or clip on a blade for added vibrate and flash.

# LEAP FROGZ

NOTE: THE LEAP FROGZ IS A TRADITIONAL HOLLOW BODY FROG THAT IS ROTO-MOULDED FROM VINYL AND IS NOT MADE FROM ELAZTECH.

A super-soft hollow body frog, designed to collapse on the strike to ensure solid hook ups. Available in both 'walking' and 'popping', Leap FrogZ feature a deep-vee body, heavy duty double hook, durable painted finish, 3D eyes, silicone skirt legs, with a sealed nose and rear drain hole to keep water out and your frog floating. The 'popping' model features an aggressive cupped face for intense popping and chugging.

# CROSSEYEZ POWER FINESSE JIG

Designed by US Bass Elite Series Pro and jig fishing specialist David Walker, ZMan CrossEyeZ Power Finesse Jigs transfer perfectly to Aussie bass and other species. A compact, streamlined design is ideal for casting, pitching, skipping and swimming, while durable colour matched head paint schemes and signature 'cross eyes' add attraction to the jig. Features a Mustad 2/0 UltraPoint chemically sharpened hook.

# TRD SPINZ

Add flash and vibration to your 10X Tough ZMan ElaZtech plastic presentation in seconds! TRD SpinZ feature a stainless steel centering wire that makes it quick and easy to insert them into your 10X Tough ZMan ElaZtech plastic. Once inserted they are secured in place by a moulded plastic, dual prong keeper.

Willow - narrower blade, rotates at faster speeds, creates more flash, sinks quicker and runs deeper.

Colorado - rounder blade, rotates at slower speeds, creates more thump, runs higher.

Blade	Code
Silver Colorado	TSPC-01PK3
Gold Colorado	TSPC-02PK3
Silver Willow	TSPW-01PK3
Gold Willow	TSPW-02PK3

# CHATTERBAIT

A deadly lure on cod, bass, saratoga and other freshwater species, along with an out of the box secret weapon for saltwater anglers, ZMan ChatterBaits combine the erratic action of a hard body, profile of a jig and flash and vibration of a spinnerbait into one unique and effective lure presentation. Noise, vibration and flash like no other lure sees the ChatterBait attract fish and trigger strikes when other lures fail to raise a scale. ZMan's unique hex-shaped blade also assists in reducing snagging, making the ChatterBait another good option for prospecting structure. Fish on!

## CHATTERBAIT MINI 1/4OZ

A downsized finesse version of the Original 3/8oz ChatterBait, the 1/4oz Mini is a perfect smaller ChatterBait presentation for Australian bass, golden perch, redfin, saratoga and more. The Mini is ideal when fishing skinny or clear water where a more subtle presentation is required.

## ORIGINAL CHATTERBAIT 3/8OZ

With its hex-blade serving as a weed guard, The Original ChatterBait is ideal for fishing heavy cover such as weed and timber. It is suited to a range of retrieve speeds, allowing you to regulate depth with a slow roll, moderate retrieve, or it can even be burned without blowing out. If you fish the fresh, or are looking for a secret weapon in the salt on species like flathead, check out the irresistible sound, vibration, flash and action of The Original ChatterBait.
