

# GARY BROWN'S ESSENTIAL BAIT FISHING RIGS

## RIGGING A PIPI

Really there is not much to putting a pipi on as bait. The main thing is that you need to make sure that it doesn't come off. To do this you need to use a bait keeper style hook. Pass the hook through the stomach area first and then out through the tongue a couple of times. Then tie a couple of half-hitches around the end of the gut to help to stop it from slipping down.
